

# Kinky-Lite Sex Moves Guys Love

Trying a naughty new technique on your man can be tricky—uh, did he just make an O face or an OMG, WTF face? With our survey results, you won't have to guess.

By Korin Miller

**D**udes talk about craving a girl who's up for anything in bed, but it's hard to gauge what kind of reaction you'll get when you whip out a wilder-than-usual move. Bring the right amount of risqué and he'll be seriously turned on; go too far into freaky territory and he'll just freak. To help you hit the sweet spot, we surveyed men online to get their take on a ton of naughty moves. They weighed in on how kinky they think each one is and how often they'd want to do them. With all these options, you'll never run out of ways to let your kinky-lite flag fly.

## FUN TOYS

Trace the outline of his nipples with Durex Play Quiver lube ice cubes, then have him trace the outline of your labia with it. Keep switching back and forth until it fully melts.

Make an impromptu, gentle gag with a pair of your sexiest underwear.

Use handcuffs that go over the top of your door (Lelo and Babeland both have comfy versions) to hold his hands high up as you go down on him.

When you're warming up, turn on your bullet vibrator and place it on his perineum while you give him a deep kiss. The sensation will get him primed for one hell of an O.

Secure his hands to the headboard with one of his ties, and warn him that if he breaks free, you'll stop what you're doing. Then explore his body with your mouth.

Slip on a finger vibrator (Babeland sells them for \$9), and alternate between using it on him—focus on his nipples and balls—and yourself.

Hand him your vibrator, and tell him to use it on *himself* while you watch.

Light a massage candle (we like *Buty Parlor's Don't Stop* candle). The wax melts into a warm oil that you can pour over both of your bodies.

Blindfold him, and tell him what you're doing to yourself (stroking your breasts, moving your fingers down south, etc.).

## ORAL

Smear a quarter-size amount of flavored lube down there, and have him slowly lick it off.

Order him *not* to get an erection when you go down on him. Once he does (and he will), "punish" him by throwing him on the bed and having your way with him while pinning his hands down above his head.

Trust us, he won't  
put up a fight.

Sure, he can have his hand back...after round two.

Give him a blow job with a bullet vibe held under your chin.

Surprise him in the shower by walking in, dropping to your knees, and pleasuring him without saying a word.

See who can level up faster in your favorite video game while the other person is going down on them.

Hand him an ice pop, and tell him to use it on your body, licking off the remnants afterward. Then slip a condom on it (so you don't get a yeast infection), and have him slide it in and out of you.

## FOREPLAY

Grab his erect shaft, and rub it lengthwise up and down your labia. Don't let him enter you until you feel like you're about to climax.

Lube up your hand and breasts. Then stand behind him and give him a hand job while rubbing your oiled-up body up and down his back.

Slip the condom on his penis with your mouth.

Start talking dirty when things heat up with something like "I want to feel every inch of you."

Have him lie on his back, and tell him he can't move. Then slowly remove your clothes and spread massage oil on both of your bods. Slide your body all over his, and keep acting like you're going to pull him inside you... but don't. Keep doing this until he begs you to begin riding him.

Coat your breasts with warming lube, squeeze them together with your hands, and have him slide his penis in and out of your cleavage. It doesn't matter what size your boobs are—it's all about the sensation he gets from rubbing back and forth.

Offer to masturbate in the tub while he watches.

## SURPRISE

him on a special occasion with an extra-dirty move.

Before you start 69, lube up your fingers. When you get started, reach up and alternate running your slippery digits over his perineum and the area around his anus.

Pour yourself a glass of champagne or yummy liqueur (like Kahlúa), and take it to the bedroom. Make out with your guy, pause, dab some liqueur on his nipples, and lick it off. Do the same with your nipples, abs, etc.

Sensory deprivation makes him feel other sensations even more. Slip headphones and a blindfold on him, and play sexy R & B while you stroke him all over.

Wake him up in the morning by licking his penis in long strokes. Every 10 licks, pull him deep into your mouth and suck, then start licking him again.

Cut a small vertical line at the collar of an old white tee, and slip it over sexy black lingerie. When things get going, tell your man to rip it off you.

## THE MAIN EVENT

For an exhibitionist thrill, do it up against a street-facing window with the curtains open and the lights on.

When he's close to the big O, have him pull out and finish on your breasts.

Whip out your yoga moves: Strip down and demo downward dog and upward dog, and let him enter you in each position.

Put on his favorite porn, and act out the sex scenes as they're happening. (Trust us, you won't end up watching much.)

Prop up your full-length mirror against the wall, and have him do you from behind in front of it.

After he enters you, alternate between his thrusts and using your vibrator. Make him pull out, and kiss him deeply while you use the vibrator.

Put on a mini sans panties, and walk up the stairs in front of him so he can see your hoo-ha. Then slowly unzip his fly, pull out his penis, and rub it against you. Bring it inside you for a second, and then pull it out again. Keep repeating it until he begs for more.

Reach around and gently spank his ass when he's on top.

When he enters you, have him thrust two times and then make him pull out. Tell him he has to lick your nipples and other sensitive parts before he can enter you again. Keep doing this until you both can't stand the delay.

Flip on one of your *True Blood* DVDs, and jump your guy when you know a hot sex scene is coming up. Leave it playing in the background while you get busy.

## NAUGHTY EXTRAS

When you're at a crowded bar, pull him into a dark corner, pin him up against the wall with your body, and stealthily slip your hand down his pants.

Pull off his boxer briefs with your teeth.

Describe a sexual fantasy when you can't act it out yet, like while you're at dinner. Then tell him you want to try it later.

Print out a sizzling story from an erotic-fiction site like *literotica.com*, and read it out loud to your guy—over breakfast.

Slip on a pair of over-the-knee fishnets and your spikiest heels before you head to bed at night.

Call him when you know he's bored at work, and tell him to listen to you masturbate.

When he comes home one night, meet him in the driveway wearing nothing but a coat. Climb in the car and get it on.

Pull on a pair of crotchless panties (or just grab a pair you already own, fold the crotch part in half, and cut a lengthwise slit in them), and perch on the edge of the sofa in your lingerie. When he walks toward you, spread your legs to show off your easy access.

Dust flavored body powder (we like *Booty Parlor's Dust Up in Marshmallow Gold*) all over your breasts and stomach, and have him lick it off.

Use a nontoxic, washable marker to write numbers on your body parts that indicate in what order he should lick them.

Wear a cheap black catsuit to bed with holes cut out to reveal your erogenous zones.

Throw on a sexy wig, do seriously smoky eyes, and wear your hottest LBD. Surprise him at the front door, and lure him to the bedroom.

Wear a sexy masquerade mask to bed, and talk dirty to him in a foreign accent.
